DOORS

**EXPECT
MORE**
THAN JUST
THE DOOR

Welcome

to our new look for 2018.

Following on from a very successful year, we are pleased to bring you our brand new, impressive range of internal and external doors for the 2018 season.

With nearly 40 years of experience, LPD is the UK's unrivalled leader in sourcing and supplying doors for the domestic market. Following new trends is a constant process, and as you browse our brochure you will discover new products such as our Georgian inspired designs and our cost effective laminate range. We have also increased our most popular door families with pre-finished and pair options.

With an ever-expanding customer service team and in-house delivery fleet, our commitment to our customers remains as solid as ever – with LPD, you really can expect more than just the door.

James Gordon
Founder and Chairman

New Styles for 2018

NEW Versailles

Showing a delightful French influence, Versailles features soft curved mouldings, which will add an air of elegance to any room. Available in two panel and glazed, the Versailles comes pre-primed in regal black or soft grey.

See page 47 for the full range.

NEW Laminate Doors

New for 2018 is this brand new range of great looking laminate doors. Based on our ever-popular Vancouver, along with the new Santandor, these highly durable, cost-effective doors represent fantastic value for money without sacrificing style or quality.

See page 68 for the full range.

NEW Eindhoven

A stunning edition to our Premium Range is this elegant panel door. The Eindhoven is a smart, single panel style with inset moulding and relief centre panel.

The Eindhoven is available with glazing, in white, black, grey or oak finish.

See page 12 for the full range.

NEW External Hardwood

Introducing nine exciting styles to our hardwood range, whether you prefer the moulded panels of Islington or the lavish, curved moulding on the Harrow, there is something for everyone.

See page 120 for the full range.

NEW Pairs

We have some fantastic additions to our Pairs range, including five new oak pairs, three white and one hardwood. Pictured here is stylish Reims with diamond inspired glazing panels.

See page 55 for the full range.

NEW

Pocket Doors

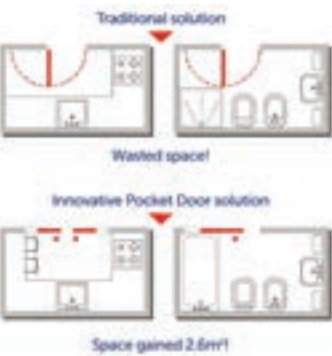

Pocket doors are designed to allow you to make use of the often unusable space taken up by conventional opening doors. By removing the footprint created by traditional hinged doors, users can typically save 2.6m² per door.

Fast becoming a neat, contemporary solution where space is at a premium, pocket door systems are ideal for living areas, en-suites or office spaces. In fact they can be used anywhere where you do not want a door encroaching into the room.

LPD's engineered cassette system comes to you pre-assembled, to simplify and reduce installation time. It is designed to take most of the LPD range of doors, including fire doors.

EASY 5 STEP INSTALLATION PROCESS!

See page 86 for details.

NEW

Even More Bestsellers

We are pleased to announce several new styles to increase the appeal of our bestsellers even further.

The ever popular Mexicano Oak now comes with a solid lower panel in the familiar slat style, with a single large glazed panel in clear with frosted lines. It is also now available with two solid panels, a full length glazed, as well as glazed pairs.

Our top-selling Vancouver now has the added option of a very smart single long light panel, as well as a bi-fold option and glazed pairs. Meanwhile, we have added a solid 9-panel option to the classic white Manhattan.

NEW

Composite Door Sets

Combining the very latest technology, the GRP facing looks like wood but is unaffected by variations in temperature. When combined with a modern sub-frame, insulating core, modern outer frame and a fantastic hardware range, these composite doors deliver a high security, weather-tight door that will not bow, warp, crack, splinter or dent.

All of our doors in the Express Range are a defined specification. They are available for immediate delivery from stock, in a variety of fantastic styles and colours to fit your home perfectly.

- High impact resistance fibreglass
- 44mm thick leaf for increased security
- High density foam core for excellent thermal efficiency
- Ideal for both domestic & commercial properties
- Part M compliant threshold option

Fire safety

The Carsington composite fire door, when installed, will resist fire for a period of 30 minutes, in accordance with British Standards. Ideal for flats and apartments, other styles can be specially ordered from us as a fire door option.

All door sets are supplied as standard with:

- Standard Aluminium Threshold
- Standard Lock
- Handle or long bar as per brochure
- Optional chrome letterbox
- Glazing as per brochure

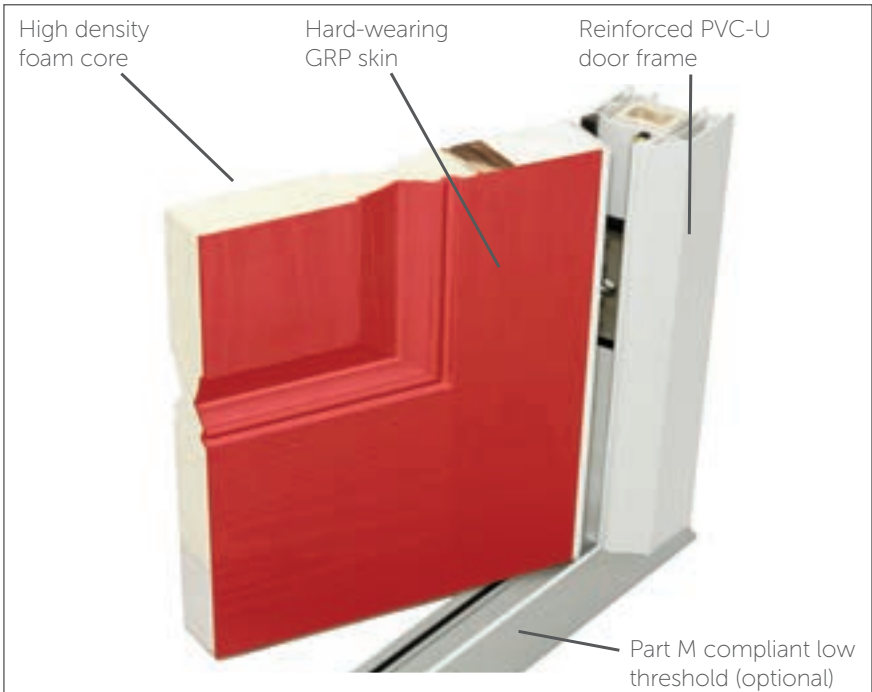

For more details, see page 130 or call for our separate Composite Door Sets Brochure, which also gives details of our bespoke range.

The Shardlow in Anthracite Grey with Satin Glazing

The Speedwell in Blue with Simplicity Glazing

High density foam core – With 40mm of high density foam at its heart, your composite door set provides unbeatable thermal performance.

GRP skin available in 11 colours and woodgrains – For long-lasting good looks and durability, our composite door sets use a GRP skin that is both hard-wearing and low maintenance.

Part M compliant threshold option - Not only ideal for wheelchair access, the low threshold of our composite door sets means easy access for everyone.

Reinforced PVC-U door frame – Due to the reinforced PVC-U frame, our composite door sets meet unrivalled standards in security with very little maintenance.

NEW

Bespoke Internal Doors

Finding the perfect door is made easy at LPD, and we have always maintained an enviable reputation for offering a wide range of on trend finishes and styles, in many standard sizes.

However, we also offer bespoke, Made-2-Measure door blades in sizes to suit most requirements, whether you want taller or wider, or both! We can offer bespoke sizes up to an impressive 2800mm x 1200mm, providing doors that fit your needs, as well as making stunning statement pieces in their own right.

“

Bespoke sizes available in most styles and finishes!

These larger doors can really make an impact in your home and to further enhance your décor, choose from many of our stock door finishes, just a few of which are shown on page 9.

By mixing the best of bespoke, both size and finish, you can really enhance any living area. For any queries, please contact us and we will do our utmost to accommodate your needs

Fire doors have some size limitations. Please contact us to discuss your fire door requirements.

Easy Ordering

Just because you need something a little out of the ordinary doesn't mean it needs to be hard work. Simply follow these four steps and wait for your bespoke door to arrive!

Step 1 Contact your local stockist to request an enquiry form.	Step 2 Once we receive your enquiry form, you will be sent an official quotation and lead time.
Step 3 You will receive a technical drawing and once approved, your door will be put into production.	Step 4 Your Made-2-Measure doors are delivered by our own, in-house delivery team.

Standard finishes

Just a selection of our standard finishes, available in standard or bespoke sizes, delivered in 8-12 weeks.

OAK

COLLECTION

INTERNAL

Durable and stylish, oak will always look good. Whether you choose a modern flush finish or a more traditional look, our range, now split into Premium, Modern and Traditional sections, makes finding the perfect door even easier.

Our oak doors are 35mm thick, except for metric, which are 40mm and are available unfinished and pre-finished. Half-hour Firecheck doors are 44mm thick.

We are delighted to be able to offer special sized doors in most models from this range of doors. Availability is subject to confirmation at the time of enquiry.

Premium Oak

These beautifully stylish doors incorporate high quality features such as, thicker panels, solid timber bolection moulds and crown and quarter-cut veneers.

Walnut Murcia – see page 39.

WALNUT COLLECTION

INTERNAL

Rich and warm, or stylish and sleek, walnut is a beautiful, versatile finish that we are pleased to offer in bestsellers, such as Vancouver through to classic Madrid or contemporary Zeus.

Our walnut doors are pre-finished and are 35mm thick, except for metric, which are 40mm. Half-hour Firecheck doors are 44mm thick.

We are delighted to be able to offer special sized doors in most models from this range of doors. Availability is subject to confirmation at the time of enquiry.

COLOURS COLLECTION

INTERNAL

This range is for people who want something a little different to a natural wood or white finish. From black through several subtle shades of grey, these doors offer the beauty of a wood grain or if you prefer, a smooth primed finish.

Our colour doors are pre-finished and are 35mm thick, except for metric, which are 40mm. Half-hour Firecheck doors are 44mm thick.

We are delighted to be able to offer special sized doors in most models from this range of doors. Availability is subject to confirmation at the time of enquiry.

WHITE COLLECTION

INTERNAL

Our white primed doors offer a wide range of interior solutions, either single leaf, bi-folds or pairs, all Primed Plus and ready for final finishing.

Elegant new styles such as Amsterdam, Eindhoven and Reims, add even more options to our White collection

Our white primed doors are 35mm thick, except for metric, which are 40mm. Half-hour Firecheck doors are 44mm thick.

We are delighted to be able to offer special sized doors in most models from this range of doors. Availability is subject to confirmation at the time of enquiry.

PITCH PINE COLLECTION

INTERNAL

Pitch pine is a distinctive timber boasting characteristic warmth, which is both enduring and pleasing to the eye. With a hint of nostalgia, this traditionally styled range is ideal for anyone wanting to give their home an authentic period look at an affordable price.

Our pitch pine doors are 35mm thick. Half-hour Firecheck doors are 44mm thick.

LAMINATE COLLECTION

INTERNAL

New for 2018, LPD is pleased to introduce a brand new range of great looking laminate doors. Based on our ever-popular Vancouver, along with the new Santandor, a smart door with full width contrasting grooves, these highly durable, cost-effective doors represent fantastic value for money without sacrificing on style or quality.

Laminate doors provide the look and feel of a real veneer but there are no variations in colour shade, as you might see with a natural wood veneer. Extremely robust, the easy clean surface makes them ideal for both domestic and commercial use.

Our Laminate doors are 35mm thick. All half hour Firecheck doors are 44mm thick.

We are delighted to be able to offer special sized doors in most models from this range of doors. Availability is subject to confirmation at the time of enquiry.

ESSENTIALS COLLECTION

INTERNAL

Offering fantastic value for money, our Essentials range includes white moulded, clear and knotty pine, hardwood and hemlock finishes. So whether it is replacement doors or working to a budget on a new build, this range offers the quality that you would expect from LPD, at a very attractive price point.

Our Essentials doors are 35mm thick, except for metric and casement pairs, which are 40mm. Half-hour Firecheck doors are 44mm thick.

Internal Accessories

LPD offers a wide range of internal door frames to suit your needs, in both oak and hardwood. Easy to put together, these frames, once finished with the top treatment of your choice, will last for years.

We also offer a choice of firedoor linings in hardwood and KSK oak finish, along with a range of intumescent strips depending on your requirements.

As well as linings, you can choose from a selection of architraves and skirtings in either oak or white to complement your door.

NEW

Pocket Doors

Pocket doors are designed to allow you to make use of the often unusable space taken up by conventional opening doors. By removing the footprint created by traditional hinged doors, users can typically save 2.6m² per door.

Fast becoming a neat, contemporary solution where space is at a premium, pocket door systems are ideal for living areas, en-suites or office spaces. In fact they can be used anywhere where you do not want a door encroaching into the room.

LPD's engineered cassette system comes to you pre-assembled, to simplify and reduce installation time. It is designed to take most of the LPD range of doors, including fire doors.*

Single Door Pocket Door

	Single Door Size				Installation Size Information						
	Imperial		Metric		Clear Opening Size (Walkthrough Area)		Cassette	Structural Opening Size		Finished Wall / Internal Space

The Cassette System

Cassette/Pocket:
Made from 0.5mm galvanised steel on the sides and 0.8mm on the top and bottom profile sections. The cassette sides are formed using a single piece of pressed steel and the corrugations spaced from 10mm apart give the cassette excellent rigidity.

Horizontal Profile Sections:
These sections further reinforce the structure and allow plasterboard to be fixed directly to the cassette.

Space Bars:
Space bars are provided for use during installation. The bars slot into the wooden jamb and cassette to ensure they are kept in alignment.

Easy 5 Step Installation Process

1. Insert aluminium track
2. Attach jamb and space bars
3. Fix to studwork
4. Apply plasterboard and plaster
5. Insert door

Available for Single or Double Doors

- Time Saving Pre-assembled Pocket
- Space Saving
 - Simple Installation
 - Suits Doors 35-44mm Thick
 - Max Weight 100kg (120kg for fire door cassette)
 - Endpost, crosspieces, cassette edge covers, door brushes and seals supplied as standard

Internal Fire Doors 🔥

Putting customers first has always been a priority at LPD Doors, and no more so than when it comes to safety. During times of ever more stringent fire safety regulations, we take pride in being able to supply our customers with not only stylish doors, but also ones that meet the necessary safety regulations for internal fire doors. As market leaders in the door industry, we have a duty to ensure to the best of our abilities, that each fire door we offer is installed to give the highest level of safety and are fitted in accordance with the appropriate fire certificates.

Many of the door styles and finishes we offer are available as 44mm thick half hour Firecheck doors (FD30). Should you have any queries or need a copy of a fire certificate, please do not hesitate to contact us and a member of our team will be able to assist you.

Wherever you see this symbol, we offer that door in a 30 minute firecheck option.

Fire rated single axis hinges EN1935, see page 81.

Intumescent Strip fitted. For Intumescent Strips, see page 85.

Fire Rated Door Frame has pre-cut groove ready to accept intumescent strip, see page 84.

Fire rated latch & lock EN12209, see page 81.

If not purchasing hardware from LPD, it must conform to the following standards:

Latches and locks:
EN12209

Single axis hinges:
EN1935

Controlled door closing device:
EN1154

All must be CE marked

These are available on pages 81 & 83.

NEW

Bespoke Internal Door Sets

Used mainly for new build, residential apartments or commercial applications, LPD has the ability to supply made to order, specified door sets on a leadtime of 8-12 weeks.

These doors all have three-layer particle board cores with a wide range of veneer options, high pressure laminates or paint finishes.

Door sets are essential to ensure performance for fire protection, sound insulation and durability. Seals and insulation are all vital to ensure the door will function as designed.

LPD door sets can be made with varying fire ratings, DB ratings and with Pas 24.

The process couldn't be easier:

The Made-2-Measure 4 Step Process

- Step 1**

Send your specification to sales@lpddoors.co.uk, or ask us for a template.
- Step 2**

We will run through all the suitable options with you and finalise your requirements along with a quotation.
- Step 3**

A technical drawing is produced for you to check and sign off on all measurements.
- Step 4**

Your doors will be manufactured and delivered in as little as 8 weeks, and no more than 12.

Picture used for illustrative purpose only.

Popular finishes

Here are some of our most popular finishes, however we can work to many specifications and requirements.

ROOM DIVIDERS COLLECTION

INTERNAL

Available in oak, hardwood or white finishes, including the new art deco inspired Reims, room dividers are ideal for people who want to open up their living room but still be able to separate each area.

NuVu FOLDING & FRENCH DOORS COLLECTION

EXTERNAL

NuVu offers a premium yet affordable off-the-shelf solution to bring the outdoors in. They open up your living space to make the most of your available light and outdoor entertaining areas.

The impressive folding/sliding doors are available in pre-finished white and oak or unfinished oak, and three to six panel configurations.

When a more classical look is preferred, NuVu French doors offer an extremely economical way of elegantly extending your living space. French doors are available in three finishes and two styles.

Environment & Materials

Nothing is more valuable than the environment in which we live, and few industries are more closely linked with the environment than timber. LPD takes its responsibilities very seriously, striving to make a positive contribution to minimise the impact of its activities on the environment.

Environment and FSC®

LPD are wholly committed to the following Environmental Policy:

- To meet or exceed all the environmental legislation that relates to the Company's activities.
- Wherever and whenever economically practicable, endeavour to use environmentally safe materials.
- Where feasible, strive towards the continual reduction of all waste streams, to air, water and land.
- Wherever commercially viable, recycle and reuse any materials that would otherwise go to landfill.
- To regularly monitor energy usage in order to reduce overall consumption.
- To communicate the policy internally and place it in the public domain.
- To establish and regularly review all environmental objectives in respect of this policy.

Being a major force in the timber related industry, we are fully committed to upholding the principles of FSC®, and aligning ourselves with manufacturers who source their materials from well managed forests. We are proud to say that an ever increasing number of our products are FSC® certified, and as we move forward, this will become more prevalent.

Door Construction

Most of our internal and external doors are manufactured using engineered component parts. This enables us to provide a product that offers a solid feel, combined with all the advantages that engineering brings in terms of strength, consistency and stability. All of our engineered doors are faced with veneers and matching lippings.

Products marked with the FSC® logo are being sourced from responsible sources. Certified in accordance with the rules of the Forest Stewardship Council®. Only the products in this brochure that are identified as such are FSC® certified.

The lpd Guarantee

10 Year Guarantee

When it comes to producing quality doors to stand the test of time, we use only the finest quality materials and manufacturing processes.

We are proud to stand by our doors, and we have no hesitation in offering a conditional 10 Year guarantee against faulty materials or workmanship.

Should one of our doors be found to be defective upon delivery, or develop a fault due to faulty materials or workmanship within 10 Years of delivery, at our discretion we will offer the original purchaser the option of repair, replacement or refund.

Please refer to details online at lpddoors.co.uk.

Finishing Guidelines

External Joinery

Products taken out of their packaging must be fully decorated straight away. Sand away any handling marks or variations and dust thoroughly before priming or sealing. Ensure that wire wool or other sanding materials containing steel or iron are not used on any of our products. Where necessary it is important that doors and frames are fully sealed on the two faces and all edges. Areas that are cut out for handles, locks, hinges and letter plates etc. must also be fully sealed. These must be in accordance with British standards. Failure to seal products accordingly will invalidate any claims.

Use a proprietary branded Hi-Build stain or paint and treat in accordance with the manufacturer's instructions. Note: Redwood, boarded doors including garage and Paint Grade doors are only suitable for Hi-Build paint finish. Lightly sand between coats to provide the best finish. Ensure adequate drying time is allowed between coats.

The sun can shorten darker colours' lifespan which makes them vulnerable to the elements. Where there are areas of high exposure, cover the external door with a hood, canopy or porch to help create a decorative finish and elongate your doors lifespan. Regular maintenance however, is required to stop the deterioration of the wood, the construction and finish. When decorating the door, take care not to paint or stain weather strips, ironmongery, projecting hinges or moving parts as this could cause damage to the performance of the product.

LPD external joinery is NOT suitable for varnishes, waxes, polishes, dyes, oils including Danish Oil, yacht varnish or lacquers, as the finishes do not protect our products.

Internal Joinery

Products taken out of their packaging, must be fully decorated straight away. Pre-finished doors however, come already finished and ready to hang. If the door edges are trimmed, they will need finishing with a polyurethane varnish.

Oak timber doors can be decorated with paint, stain, varnish or lacquer. White primed timber doors can be decorated with any good quality paint suited to your property.

LPD internal joinery is NOT suitable for waxes, polishes, dyes and oils etc. Please refer to manufacturer's instructions.

Maintenance Guidelines

LPD recommend the following points to maintain and extend the life of your exterior joinery products:

- All joinery products should be washed twice a year minimum with a mild solution of soapy water, and rinsed with clean water. This should be completed at least four times if in a marine or industrial environment.
- All mechanical hinges etc. should be oiled with grease or neutral oils.
- Weather seals should be checked and cleaned often.
- When cleaned, scrape, lightly sand and touch up any areas of wear and tear with a matching microporous paint or stain. Bare wood should be primed first.
- Timber is a natural product so performs slightly differently throughout the year, seasonal adjustment may be required to assure ongoing performance.
