

THE
MARTDOOR
COLLECTION

WELCOME

Martindales has been manufacturing since 1986, in this time we have built up a reputation for quality service and reliability.

We are happy to introduce to the market THE MARTDOOR, a door that has been designed without compromise, with all components hand picked with quality, durability and security in mind.

All doors come as standard with stainless steel hardware and a 3 star high security barrel, all encased in the Rustique 5 chamber Halo by Veka outer frame.

Thermal Performance

Our composite doors are much more thermally efficient than traditional timber or PVCu doors

A composite door offers outstanding thermal performance as it's developed using PVCu, timber, insulating foam and GRP (glass reinforced plastic). The combining of these materials makes it far more thermally efficient than your normal entrance door. Composite doors are exceptionally good at stopping cold air from the outside getting indoors and this will make you less dependent on your heating system.

The overall thermal efficiency of a composite door can be influenced by the choice of glazing for the design. Current legislation stipulates that all new doors sold and fitted in England & Wales must have a "U" value not exceeding 1.8W/m²K.

ALU-DOORS

Frame Colours

With Standard colours in black (beck brown), Anthracite grey, Chartwell green, Golden oak, White and Rosewood, our PVCu frames create a wonderful addition to any door style traditional or contemporary.

We also provide a full range of bespoke RAL colour options meaning you can match your frame colour to your composite door or anything you can imagine. Anything is possible!

WHITE

ROSEWOOD

GOLDEN OAK

ANTHRACITE GREY

BLACK (BECK BROWN)

CHARTWELL GREEN

SLATE GREY

SILVER GREY

AGATE GREY

PEBBLE GREY

CREAM

SMOOTH ANTHRACITE GREY

Our doors are available in a number of solid colours with woodgrain finishes. New modern colour shades such as Chartwell green, duck egg blue and anthracite grey are also now readily available.

Standard Colours

Premium RAL Colours

We, at Martindales, believe you should make your door as distinctive to your taste as possible, giving you the right tools to show your individuality. Here are a few of our suggestions, but your imagination is the limit with an endless array of RAL colours!

Due to the limitations of the print process, colour shades may vary from those shown in this brochure. Real samples are available upon request.

Care & Maintenance

A composite door is the best choice for longevity and security, meaning this door could last you a lifetime. However, with that longevity and lifespan, your door will be exposed to the elements and will need some light care and maintenance. We'd recommend all customers to carry out a care and maintenance routine.

- * To clean the door itself, all you need is a bucket of warm soapy water and a nice, soft cloth. (Don't use anything abrasive like a brillo pad or rough sided sponge as this may scratch your finish). The warm, soapy water is all that is required to remove any grit and grime that may have built up on your door.
- * The warm, soapy water can also be used on the frame of the door. Be sure to open the door to get all around the edges of the frames and to get any of that concealed dirt that may affect the closing of your door if allowed to build up.
- * Now use a fresh, soft cloth and bucket of warm, soapy water to clean any glass in your door. Dry the glass with another soft, dry cloth and apply a household glass cleaner if you feel the glass needs something a little extra.

Naples

Urban Glazing
(modern aluminium glazing system)

A staple in our contemporary door collection. With its long panel style glass and its unique colour range, the Naples is a cut above some of the more simple contemporary styles especially with its aluminium glazing cassette bringing out its modern charm.

Glass used in this door style is also available in the [Caserta](#), [Lucca](#), [Bari](#) and [Monza](#) styles.

Tivoli | Asti 4
Urban Glazing Cassette
(modern aluminium glazing system)

With its sleek 4 square design, our asti style is a unique take on a conventional style of contemporary door. Fitted with aluminium cassettes this is sure to stand out in more modern properties.

Glass used in this door style is also available in the [Modena](#), [Palermo](#) and [Genoa](#) styles.

Alu-doors

Our 'Alu-door' range are glazed with a modern aluminium finish glazing cassette on a textured finish aluminium looking door slab, which will give your home an ultra modern look.

Alu-doors feature a decorative groove on the external surface of the door. Some also have a hand-painted finish. Whilst alu-doors are shown in anthracite grey, the full range of RAL colours are available.

Finishing Touches

High Security As Standard

Hardware is available in a number of finishes to suit both your home and personal tastes. These include Chrome, Gold, Black, Satin and White. All hardware and letter plates are finished in high quality stainless steel.

All the bevels in this brochure are glass cut bevels. Small inclusions may be found in some bevels and these should not be regarded as a fault. All bevels are cut and bonded to glass by hand meaning some variation in shape may occur. Due to limitations in the print process, door and glass colour shade may vary from those shown and are guidance purposes only.

Martindales' policy is one of continuous improvement and the right is reserved to change design and specification without notice. The unauthorised copying or reproduction of any designs in this brochure will result in legal action being taken under the designs and patents act 1988.
